

SPECIFICATION

Range: **BISS**

Design: **Giulio Iacchetti**

Codes: 1740-BO, 1740-GR

Codes: **1740-BO, 1740-GR**

Dimension: maximum length of composition 79 cm, internal diameter of each element 5 cm, external diameter of each element 7 cm.

Description: white or grey high-tech polymer cable duct used to meet a variety of cable laying requirements. The frame is made of 12 interlocked elements that swivel to 180°. The perforated upper attachment allows you to fit the cable duct under the desk top or vertically on a wall. The cable duct ends with a black round weight that rests on the floor in one point only without damaging it.
