Range: **KALEIDOS**

Design: **Michele De Lucchi and Sezgin Aksu**

Codes: **9K404-CN, 9K404-CB, 9K404-CGR**
9K402-CN, 9K402-CB, 9K402-CGR

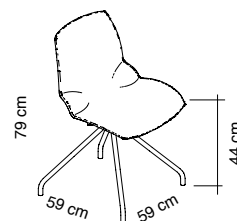

Description: PA6 glass-filled polyamide shell with a special "watermark" surface finish that gives the chair extraordinary three-dimensional optical and tactile effects.

The chair shells are available in white, black and grey.

The frame has 4 chrome-plated tapered steel legs with high-tech polymer feet.

The frame is assembled by connecting 4 screws to the 4 threaded metal bushings inserted directly inside the chair shell.

Kaleidos chairs are fully recyclable
