

SPECIFICATION

Range: **KOALA**

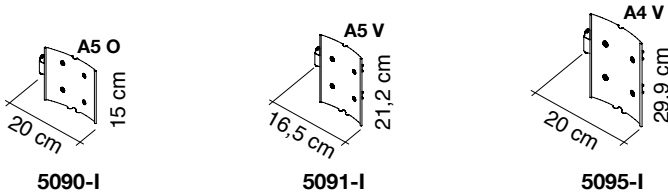

Design: **Michele De Lucchi with Sezgin Aksu**

Codes: 5090-I, 5091-I, 5095-I, 5090-B, 5091-B, 5094-B, 5095-B, 5090, 5091, 5094, 5095, 5190, 5191

Codes: **5090-I, 5091-I, 5095-I**

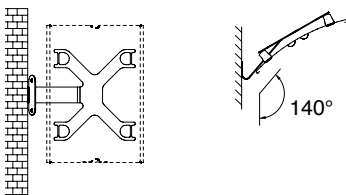

Description: single-sided display units, including a 140° angled wall-mounting fitting, made from silver-grey epoxy-powder coated steel sheet, with a concave curved shape, folded at the sides to form two side guides inside which a sheet of flexible and transparent PET is slotted to protect and hold the displayed literature in place. Two sheet metal flaps on the bottom edge of the display unit prevents the displayed literature from falling out. The displays are coupled to the supports using the 4 clamps at the back of the display unit available in the standard colour - grey.

Each clamp consists of an element that contains the high-tech polymer cable lock hook, a threaded metal insert and a zinc-plated steel screw whose head is inserted in a high-tech polymer washer fitted on the front of the display unit which is entirely covered by the displayed literature, concealing the coupling system.

Code: **5190**

Description: support to wall-mount a single-sided flat or concave displays at a 140° angle. It is fastened to the wall using two holes in the base and is made from silver-grey epoxy-powder coated steel.

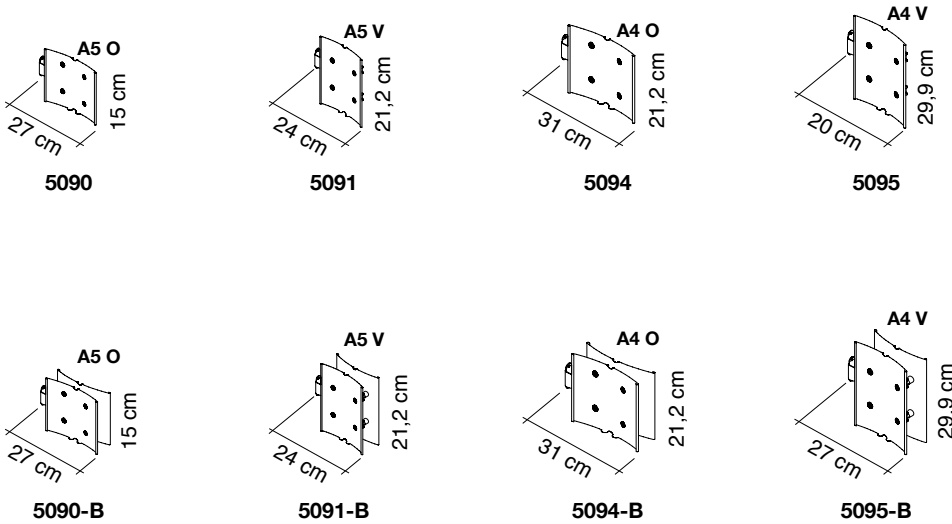

For formats: A5 O, A5 V, A4 V

Codes: **5090, 5091, 5094, 5095, 5090-B, 5091-B, 5094-B, 5095-B**

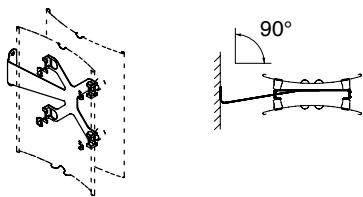

Description: single and double-sided display units, including a 90° angled wall-mounting fitting, made from silver-grey epoxy-powder coated steel sheet, with a concave curved shape, folded at the sides to form two side guides inside which a sheet of flexible and transparent PET is slotted to protect and hold the displayed literature in place. Two sheet metal flaps on the bottom edge of the display unit prevents the displayed literature from falling out. The displays are coupled to the supports using the 4 clamps at the back of the display unit available in the standard colour - grey.

Each clamp consists of an element that contains the high-tech polymer cable lock hook, a threaded metal insert and a zinc-plated steel screw whose head is inserted in a high-tech polymer washer fitted on the front of the display unit which is entirely covered by the displayed literature, concealing the coupling system.

Code: **5191**

Description: support to wall-mount a single-sided or two double-sided flat or concave displays at a 90° angle. It is fastened to the wall using two holes in the base and is made from silver-grey epoxy-powder coated steel.

For formats: A5 O, A5 V, A4 O, A4 V
