

SPECIFICATION

Range: **SWING**

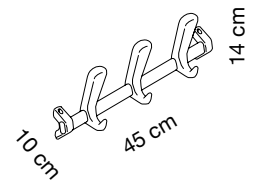

Design: **Claudio Bellini**

Codes: **1523-B**

Dimension: start unit: height 14 cm, length 45 cm, depth 10 cm
add-on unit: height 14 cm, length 42 cm, depth 10 cm

Description: wall-mounted 6-seat coat rail (3 knobs and 3 hooks) consisting of an oval 15x30 mm chromed steel support rail, with three coat hanger elements each comprising a knob and a hook, made of glossy white polycarbonate. The coat hanger elements can be left free to slide or be fixed by screws located at the rear. The support bar is fitted with two glossy white polycarbonate fixtures which are mounted on the wall using screws and dowels.

By simply removing the side caps the supports allow the two bars to be fitted together and hence adjust the wall-mounted coat rail to the desired length with multiple hangers.
