

SPECIFICATION

Range: **SNOWALL MAXI**
Design: **Caimi Lab**

Sound-absorbing material for wall application.

Description:

Sound absorbing composite material, made up of a layer of polyester fabric Trevira CS®, with embossed cannulated finish, intrinsically flame retardant, coupled with a layer of black polyester needle punched for a uniform thickness of about 4 mm. Snowall is available in rolls and can be glued to the wall and cut.

The panel has **Euroclass B-s2, d0** fire reaction.

The fabric is **Greenguard Gold certified**, which certifies its low VOC emission and its contribution to the quality of the indoor environment.

The fabric is **100% recyclable** and has no detectable formaldehyde content according to UNI EN 717-2. It doesn't contain felt or other organic materials (hard to recycle).

Roll dimensions: H 288 x L 120 cm = 3,45 m²
